

2018 Annual Workshop Evals

What part of the Service Workshop helped you the most:

Meeting the Trustee/Guest

General Sessions Presentations

General Sharing from the Floor

GSR/DCM Breakout Session

Saturday Night Speaker

Sunday Morning Sharing

Workshop Experience as a Whole

Other

In What way did it help?

So interesting, sharing AA around the world

Re confirms common beliefs

Renews my desire/need for/love of service work

Great Information on traditions and AAWS

Learning what the Trustee At Large does for AA as a whole

It challenged me to think differently about Anonymity. That it isn't just me that is affected when I break my Anonymity

Gave great insight on sticking with the traditions to better serve AA the group and new comers

Kathy, District 3 did a great presentation on Group Conscience, she knocked it out of the park

Presentations were informative, interesting and fun, great speaker

Trustees international experience and remembering and applying it in using the tradition's as a guide and not a club

Everything

Always expands my knowledge of AA

Meeting new people and seeing old friends, wonderful fellowship

It helps to me to recharge my batteries

I really enjoyed getting to know a lot of people from different districts

Sincere Story inspiring

Example of service, he sets the bar high, inspiring, love the fellowship, love the literature available

They were good topics and good presentations

Open my eyes to what we are about

Had me in tears, reminded me of how we are human and alcoholics

Listening and learning

The workshop touches many aspects of our organization. Service groups ne comers, traditions lit, concepts, steps, god and more

New ideas

New suggestions and ideas to ponder

It gave me a fresh perspective on my service work

Learned more about aspect of things

Encouraging that we are still using traditions

Showed we all are trying to do the same thing

To understand how I can carry my message back to my group

Enjoyed brief sharing with those around you and new friends

New learning, new ideas

Unity meeting personally speaking with other caring volunteers working in a common effort to increase awareness of what's available outside groups

Renewed my desire to be and stay sober

Ability to interact during presentations

That more communications need to be spread out visit the group that do not participate

I am a new GSR and this was very informative and enlightening to my minimal experience as GSR,

Trustee presentation was fantastic

Very inspirational reminded me of what a gift this is

I always learn something new

Do you have any suggestions for improving our Area 35 Service Workshop?

More small group Breakout sessions

Great Job

Perhaps a way to offer cheaper meals close by when choosing locations

Perhaps the whole group could pitch in to order pizza etc. for lunch, serve an inexpensive breakfast in the meeting rooms etc.

None, you guys did great

Parking terrible awful had to Park in the bowling Alley, bad setup, was full

Emphasize brining more people bring someone with

Different Hotel

Everyone worked well together to make the workshop happen

Free coffee

Bigger attendance

More GSR's

Doughnuts, fruit and free coffee

Encourage more folks to attend, Limit time at mic to 5 minutes

Have host city have a newbie panel, 4 to 8-member share on their experience getting into AA

Did not care for the hotel, possibly at a different one in Duluth if it is held in Duluth again

Keep everyone in the timeline including the speakers

Ask people that aren't here

Morning introductions could recognize GSR's, DCM's. An open forum style Q & A broadens the vision of one district to another

Better elevators where eating is available as a group where there's a chance to socialize more with different people. Wish I could have got with more volunteers

Change to Feb, may be warmer

More opportunity in interact with everyone

I ask that Sunday topics be moved to the top of an agenda in the future

The hotel was a bit frustrating, but I learned to put that aside and focus on why I'm here

I would have liked an activity during DCM/GSR session

Too much crosstalk
